

MUSCLEROID

WHOLESALE STEROID SUPPLIER

UK-UK DELIVERY - CUSTOM CLEARANCE ASSURED

Established in the year of **2015**, We “**MuscleRoid**” are Exporter, Manufacturer and Distributor of Erectile Dysfunction , Anti HIV Medicines, Anti Cancer, Steroids' We direct all our activities to cater the expectations of customers by providing them excellent quality products as per their gratification. Moreover, we follow moral business policies and crystal pure transparency in all our transactions to keep healthy relations with the customers.

T3 TAB

Liothyronine Sodium Tablet

Liothre is a thyroid hormone It works by supplementing the natural thyroid hormones in the body. Liothre is used in cases of thyroid disease, obesity, metabolic disorders and fatigue.

CLOMIBOL TAB

Clomiphene Citrate Tablets USP 50 Mg

Clomibol 50 Mg is an oral medication containing Clomiphene Citrate, a selective estrogen receptor modulator (SERM) primarily used to treat infertility in women. It stimulates ovulation in women who have irregular menstrual cycles or anovulation. By binding to estrogen receptors in the brain, Clomibol enhances the release of gonadotropins, which are essential for ovulation.

WINVOL TAB

Stanozolol 100Mg Injection

WINVOL Injection contains the active ingredient stanozolol, which is a synthetic anabolic steroid. Stanozolol is derived from dihydrotestosterone (DHT) and is known for its ability to promote muscle growth, enhance athletic performance, and increase strength.

NANDROLIN 100 mg Injection

Nandrolin (Nandrolone Phenylpropionate) (or NPP for short) manufactured by the pharmaceutical company Evolve biolabs. The first appearance of this drug dates back to the 1960s. The official release of this steroid was then made by Organon.

The efficacy of the drug is also used in the medical setting, but over time other pharmaceutical companies are beginning to update and manufacture this drug due to their ability to achieve their athletic goals. Athletes who want to gain high quality muscle mass and improve strength performance in a short amount of time should choose to purchase NPP from evolve biolabs.

CLENABOL 10 MG TAB

Clenbuterolis apotent, long-lasting bronchodilator that is prescribed for human use outside of the UnitedStates.It is abused generally by bodybuilders and athletes for its ability to increase lean muscle mass and reduce body fat (i.e., repartitioning effects).

DECAMAXX 400 MG INJECTION

Decamaxx 400MG Injection is a medicine used in the treatment of osteoporosis in post-menopausal women. It helps strengthen the bones which become thin and brittle due to osteoporosis.

BOLDAMAXX 400 MG INJECTION

Boldenone Undecylenate 400Mg Injection

Boldmaxx is a potent hormone that comprises 400 mg a dose of Boldenone Undecylenate. This is developed to enhance growth in musculature and improve metabolism. Boldmax, with its long-release formulas, allows it to have steady benefits for those looking to grow muscle mass and strength.

ANAVAR 10 MG TABLETS

Oxandrolone 10 Mg Tab

Tablets containing 10 mg of oxandrolone are a powerful and effective way to improve muscle growth and athletic performance

Oxandrolone is the main ingredient for increasing muscle growth and strength and contains 10 mg per tablet.

Athletes and bodybuilders who want to improve their performance and reach their fitness goals often use these drugs.

Being a synthetic form of testosterone, oxandrolone is a great option for those who want to gain lean muscle mass without experiencing the side effects of other anabolic steroids.

ANDROL 50 MG TABLET

Oxymetholone 50 mg Tablet

Unlock the power of our top-of-the-line Oxymetholone 50 mg tablets, formulated with premium ingredients for optimal performance.

Elevate your training program with this supplement designed to boost stamina, endurance, and increased muscle weight.

Oxymetholone rejuvenates your body - 50 mg to increase and you could be able to achieve your desired result.

BOLDABOL 250 MG INJECTION

Boldenone Undecylenate 250MG

Boldabol is a reliable hormone supplement designed to support muscle development and improve metabolism. Boldenone Undecylenate 250mg per dose, designed for lasting benefits over time.

Incorporate Boldabol into your fitness routine responsibly to support muscle growth and enhance physical performance. Prioritize consultation with a healthcare provider to ensure safe and effective usage.

Anarix TAB

Oxandrolone U.S.P. 10 mg

Oxandrolone, often known as Anarix, is an anabolic steroid medicine that is commonly used to help people regain weight lost due to certain medical problems, to ease bone pain caused by bone loss (osteoporosis), to aid in the healing from severe burns, and for other purposes.

BOLDAMAXX

Boldenone Undecylenate 400MG

Boldmaxx is a potent hormone that comprises 400 mg a dose of Boldenone Undecylenate. This is developed to enhance growth in musculature and improve metabolism. Boldmax, with its long-release formulas, allows it to have steady benefits for those looking to grow muscle mass and strength.

Andrix TAB

Oxymetholone U.S.P 50mg

Oxymetholone is a type of anabolic steroid. Synthetic anabolic steroids are chemicals that replicate the effects of the male hormone testosterone. In addition to its medical use, it has been used for performance enhancement by some athletes and bodybuilders due to its ability to increase muscular mass and strength.

BOLDARIX INJECTION

BOLDENONE UNDECYLENATE 250 mg/ml

The primary usage of boldenone undecylenate is to promote muscle growth and increase lean body mass. It has a relatively high anabolic-to-androgenic ratio, which implies it can stimulate muscular building while causing less androgenic adverse effects than other steroids.

CLENAR TAB

Clenbuterol E.P 40mcg

Clenbuterol is most commonly used to treat bronchospasm in asthma, chronic obstructive pulmonary disease (COPD), and other respiratory illnesses. It works by relaxing the smooth muscles of the airways, making breathing easier.

DANARIX TAB

Methandienone U.S.P 10mg

Methandienone U.S.P10 is a medicine or supplement that includes the active component Methandienone. Methandienone is a synthetic anabolic steroid that sportsmen and bodybuilders frequently use to boost muscle growth and performance. It is also known by brand names such as Dianabol.

DECARIX INJECTION

Nandrolone Decanoate 250 mg/ml

Nandrolone Decanoate is a modified version of testosterone, a naturally occurring male sex hormone. It has a decanoate ester linked to the nandrolone molecule in its chemical structure. This ester prolongs the drug's release into the bloodstream following injection.

KLENBOL TAB

Clenbuterol Tablet, 60 mcg

Clenbuterol Tablets is available in 60 mcg.

Clenbuterol Hydrochloride tablets has a rapid and powerful bronchial-dilating action. Its effect is expressed in a reduction of protein degradation in muscle cells, leading to an increase in muscle bulk and muscle strength. In the prescribed therapeutic doses, Clenbuterol has no influence on heart rate or arterial blood pressure, and does not affect oxygen saturation of arterial blood.

MASTARIX INJECTION

Drostanolone Propionate 100 mg/ml

Drostanolone Propionate 100 is a drug that contains the synthetic anabolic steroid Drostanolone Propionate as the active ingredient. It's also known by brand names like Masteron. Chemical structure: Drostanolone Propionate is a modified version of DHT that has a 2-methyl group added to the DHT molecule to make it more anabolic. The "propionate" component refers to the ester linked to the steroid molecule, which regulates the rate of release in the body.

NANDRXI INJECTION

Nandrolone Phenlypropionate 100 mg/ml

The synthetic anabolic steroid Nandrolone Phenylpropionate 100, sometimes known as NPP 100, is manufactured from the hormone nandrolone. It is a fast-acting and relatively short-estered form of nandrolone, which means that its half-life is shorter than that of Nandrolone Decanoate (Deca-Durabolin), with which it is interchangeable. Nandrolone Phenylpropionate is used to increase muscular mass and strength. It is also renowned for its capacity to enhance bone density, which is useful in some medical problems. Anemia Treatment: It has been used in the treatment of anemia and other disorders where red blood cell formation is impeded. Some users claim increased joint health and reduced discomfort as a result of hard training.

LIOT3

Liothyronine Sodium Tablets

It is man made form of Triiodothyronine(T3).

It is most commonly used to treat Hypothyroidism. Cytomel Tablet is available in 25 mcg. Thyroid hormone drugs are natural or synthetic preparations containing Triiodothyronine(T3,Liothyronine). Cytomel is used as a replacement or supplemental therapy in patients with Hypothyroidism of any etiology..

PRIMORIX INJECTION

Methenolone Enanthate 100 mg/ml

A synthetic anabolic steroid called methenolone enanthate 100 is primarily used to boost muscle growth and improve athletic performance. Methenolone Enanthate has been used in some instances to treat anemia, a disorder marked by a low red blood cell count, especially when anabolic steroids are thought to be a viable alternative. It can aid in boosting red blood cell synthesis and easing anemic symptoms. It has been used to treat some wasting syndromes, in which patients lose a lot of weight and develop weak muscles. Alternative treatments are frequently favoured today, whereas this use was more prevalent in the past.

STANORIX INJECTION

Stanozolol 100 mg/ml

Stanozolol is a synthetic anabolic steroid that belongs to the androgen class of medicines. It is also known as Stanorix, which is the brand name for it. Stanozolol is mostly used in hospitals to treat illnesses like angioedema and anemia.

SUSTARIX INJECTION

Testosterone Mix Compound 250 mg/ml

A combination of several testosterone esters is found in the pharmaceutical medicine Testosterone Mix Compound 250. The principal male sex hormone, testosterone, is in charge of establishing and preserving male sexual traits. In medical contexts, testosterone esters—synthetic testosterone derivatives are used to treat diseases like hypogonadism that are linked to low testosterone levels in males.

T-3 TABLET

Liothyronine Sodium B.P 25 mcg

Liothyronine Sodium, often known as Liothyronine or T3, is a medicine used to treat thyroid problems. It is a synthetic version of triiodothyronine (T3), one of the thyroid gland's two primary thyroid hormones, the other being thyroxin (T4).

TESTORIX-C INJECTION

Testosterone Cypionate 250 mg/ml

In the form of testosterone cypionate, the drug Testosterone Cypionate 250 includes the hormone testosterone. It is frequently given for medical conditions, such as males with low testosterone levels who need hormone replacement therapy. Some athletes and bodybuilders also use to improve their performance.

BOLDI 250 INJECTION

Boldenone Undecylenate

AddaBoldenoneUndecylenate Inj. 200 mg/ml is a man-made steroid, similar to the naturally occurring steroid testosterone.

Boldenone Undecylenate is used to promote weight gain.

Boldenone Undecylenate is also used to decrease muscle loss caused by treatment with corticosteroids and to reduce bone pain associated with osteoporosis. It produces a slow and steady anabolic effect while improving appetite leading to its long-term popularity. For Men: 200-500 mg IM per week.

TESTORIX-E INJECTION

Testosterone Enanthate 250 mg/ml

A drug called Enanthate 250 includes testosterone in the form of testosterone enanthate. In order to treat males with low testosterone levels, it is utilized as hormone replacement treatment.

TRENARIX-A INJECTION

Trenbolone Acetate 100 mg/ml

Trenbolone Acetate 100 is a synthetic anabolic steroid that athletes and bodybuilders use to increase muscle growth and performance. It is one of the many different types of trenbolone, a powerful anabolic steroid.

TRENARIX-E INJECTION

Trenbolone Enanthate 200 mg/ml

Trenbolone Enanthate 200 is a synthetic anabolic steroid manufactured from nandrolone that belongs to the trenbolone class. It is mostly utilized in bodybuilding and sports performance improvement to promote muscle growth, strength, and general physical performance.

BOLDABOL INJECTION

Boldenone Undecylenate 250MG

Boldabol is a reliable hormone supplement designed to support muscle development and improve metabolism. Boldenone Undecylenate 250mg per dose, designed for lasting benefits over time.

DECABOL 250 INJECTION

NANDROLONE DECANOATE 250MG

Decabol 250 having Nandrolone Decanoate 250mg is a specialized hormonal supplement that supports muscle growth and overall physical performance. It offers sustained release of the product in the body and ensures enhanced effects among athletes and bodybuilders

NANDROLIN INJECTION

Nandrolone Phenyl Propionate 100MG

Nandrolin is a potent hormone supplement, with a formula of Nandrolone Phenyl Propionate in each dose, having 100MG energy. It is made to fill in your fitness.

TEST- C INJECTION

TESTOSTERONE CYPIONATE 250MG

TEST C is a reliable hormone supplement containing 250mg of Testosterone Cypionate. It is designed to release testosterone for longer periods, stabilizing testosterone levels in the body for longer periods. With standard dosing regimens, TEST C is popular with individuals seeking consistent results.

TEST-E INJECTION

TESTOSTERONE ENANTHATE 250MG

TEST E is a reliable hormone supplement containing 250mg of Testosterone Enanthate. It is formulated for long-term release, providing steady levels of testosterone in the body over a long period. Test E is popular with individuals who want long-lasting and smooth effects with their testosterone supplementation.

SUSTAMIX INJECTION

Testosterone Mix Compound 250MG

Sustamix 250 is a powerful hormonal medicine that consists of a blend of 4 testosterone: Testosterone Phenylpropionate 60mg, Testosterone Isocaproate B.P. 60mg, and testosterone decanoate bp. 100mg, & testosterone b.p. 30mg in total 250mg per dose. It is a testosterone blend given by injection that is composed of mixtures especially designed to provide a high-paced release of testosterone within the body post-injection, hence keeping the benefits of muscle growth and physical performance for longer periods.

TEST PROP INJECTION

TESTOSTERONE PROPIONATE 100MG

TEST P is a reliable hormonal supplement formulated with Testosterone Propionate 100mg which is designed to boost testosterone levels. It's formulated for rapid absorption and fast-acting effect which makes it ideal for individuals aiming for immediate results. Most testosterone Propionate is for bodybuilding and athletes.

TRENABOL INJECTION

TRENBOLONE ACETATE 100MG

TEST P is a reliable hormonal supplement formulated with Testosterone Propionate 100mg which is designed to boost testosterone levels. It's formulated for rapid absorption and fast-acting effect which makes it ideal for individuals aiming for immediate results. Most testosterone Propionate is for bodybuilding and athletes.

TRENBOLON INJECTION

Trenbolone Enanthate 200MG

Trenbolone is a potent hormone containing Trenbolone Enanthate 200mg. It is designed to support muscle growth, increase energy, and improve physical performance. By providing a long-acting ester, Trenbolone keeps it released, ensuring lasting effects for individuals seeking maximum benefits.

PRIMOBOL INJECTION

Methenolone Enanthate 100MG 10 ML

Primobol is a reliable hormone supplement that contains 100mg of Methenolone Enanthate and is manufactured to be instrumental in muscle growth and the improvement of metabolism. Primobol 100 acts through nitrogen fixation in tissues that enhance protein synthesis, which, in turn, causes hypertrophy in growing tissues.

STANO 50 INJECTION

Stanozolol 50MG

Stanozolol 50mg contains Stano 50, which is a reliable hormone supplement. It is formulated with the strategy to support muscle growth, enhance metabolism, and increase muscle definition. Stanozolol 50mg injection is also popular among athletes and bodybuilders for providing a perfect definition of soft tissues.

PARABOL INJECTION

Trenbolone Hexahydrobenzylcarbonate 76.5 mg/mL

Parabol is a powerful hormone; it contains 76.5 mg/mL of trenbolone hexahydrobenzylcarbonate. It is prepared for muscle gain with increased metabolism. Long-lasting formulas of Parabol yield constant benefits for those who are after both muscle mass and strength.

TEST - PROP INJECTION

TESTOSTERONE PROPIONATE 100MG

TEST P is a reliable hormonal supplement formulated with Testosterone Propionate 100mg which is designed to boost testosterone levels. It's formulated for rapid absorption and fast-acting effect which makes it ideal for individuals aiming for immediate results. Most testosterone Propionate is for bodybuilding and athletes.

TEST - C INJECTION

TESTOSTERONE CYPIONATE 250MG

TEST P is a reliable hormonal supplement formulated with Testosterone Propionate 100mg which is designed to boost testosterone levels. It's formulated for rapid absorption and fast-acting effect which makes it ideal for individuals aiming for immediate results. Most testosterone Propionate is for bodybuilding and athletes.

TEST - E INJECTION

TESTOSTERONE PROPIONATE 100MG

TEST E is a reliable hormone supplement containing 250mg of Testosterone Enanthate. It is formulated for long-term release, providing steady levels of testosterone in the body over a long period. Test E is popular with individuals who want long-lasting and smooth effects with their testosterone supplementation.

TRENABOL INJECTION

TRENOLONE ACETATE 100MG

TRENABOL is a hormone potent containing Trenbolone Acetate 100mg, known for its metabolic properties, it makes it popular with bodybuilders and athletes looking for rapid muscle gains and improved performance.

TRENBOLON INJECTION

Trenbolone Enanthate 200MG

Trenbolone is a potent hormone containing Trenbolone Enanthate 200mg. It is designed to support muscle growth, increase energy, and improve physical performance. By providing a long-acting ester, Trenbolone keeps it released, ensuring lasting effects for individuals seeking maximum benefits.

SUSTAMIX INJECTION

Testosterone Mix Compound 250MG

Sustamix 250 is a powerful hormonal medicine that consists of a blend of 4 testosterone: Testosterone Phenylpropionate 60mg, Testosterone Isocaproate B.P. 60mg, and testosterone decanoate bp. 100mg, & testosterone b.p. 30mg in total 250mg per dose. It is a testosterone blend given by injection that is composed of mixtures especially designed to provide a high-paced release of testosterone within the body post-injection, hence keeping the benefits of muscle growth and physical performance for longer periods.

TESTOBOL INJECTION

Testosterone Suspension 50MG

Testobol is a highly potent hormone, with 50 mg of Testosterone Suspension contained in every single dose. In comparison with all other testosterone supplements available Testobol is in a pure water-based form, which further helps it to absorb rapidly with a fast onset of action. Testosterone Suspension injection offers rapid effects, with the fast-acting chemical properties promising benefits for improved muscle growth and physical fitness.

TRENBOLON INJECTION

Trenbolone Enanthate 200MG

Trenbolone is a potent hormone containing Trenbolone Enanthate 200mg. It is designed to support muscle growth, increase energy, and improve physical performance. By providing a long-acting ester, Trenbolone keeps it released, ensuring lasting effects for individuals seeking maximum benefits.

BOLDABOL PRO-SERIES INJECTION

Boldenone Undecylenate 250MG

Boldabol is a reliable hormone supplement designed to support muscle development and improve metabolism. Boldenone Undecylenate 250mg per dose, designed for lasting benefits over time.

MASTERON PRO-SERIES INJECTION

Drostanolone Propionate 100mg/ml

Masteron is a powerful hormone consisting of 100mg/ml Drostanolone Propionate. It is intended to support muscle gain and enhance metabolism. The quick-acting formulas of Masteron 100 mg Drostanolone Propionate provide rapid results for people looking to improve definition in musculature and overall physical appearance.

NANDROLIN PRO-SERIES INJECTION

Nandrolone Phenyl Propionate 100MG

Nandrolin is a potent hormone supplement, with a formula of Nandrolone Phenyl Propionate in each dose, having 100MG energy. It is made to fill in your fitness.

TEST-C PRO-SERIES INJECTION

TESTOSTERONE CYPIONATE 250MG

TEST C is a reliable hormone supplement containing 250mg of Testosterone Cypionate. It is designed to release testosterone for longer periods, stabilizing testosterone levels in the body for longer periods. With standard dosing regimens, TEST C is popular with individuals seeking consistent results.

TEST-E PRO-SERIES INJECTION

Nandrolone Phenyl Propionate 100MG

TEST E is a reliable hormone supplement containing 250mg of Testosterone Enanthate. It is formulated for long-term release, providing steady levels of testosterone in the body over a long period. Test E is popular with individuals who want long-lasting and smooth effects with their testosterone supplementation.

PACLINAMO INJECTION

Paclitaxel 300MG

PACLINAMO 300mg Injection is an anti-cancer medication used for the treatment of breast cancer, pancreatic cancer and non-small cell lung cancer. Some common side effects of this medicine include nausea, vomiting, and weakness. It may also cause serious side effects such as swelling of hands, lips, hair loss, and weight gain.

OXALINAMO INJECTION

Oxaliplatin 100MG

OXALINAMO 100 Injection is used in the treatment of cancer of colon and rectum. It shows its working by stopping or slowing down the growth of cancer cells. Nausea, fatigue, vomiting, and diarrhea are some common side effects of this medicine.

TROMBONAMO TABLET

Eltrombopag Olamine 50 Mg

TROMBONAMO Tablet is used to treat low platelet count due to chronic immune (idiopathic) thrombocytopenic purpura (ITP) or chronic hepatitis C virus (HCV) infection. It is also used to treat severe aplastic anemia.

LENVANAMO CAPSULES

LENVATINIB 10 MG

OXALINAMO 100 Injection is used in the treatment of cancer of colon and rectum. It shows its working by stopping or slowing down the growth of cancer cells. Nausea, fatigue, vomiting, and diarrhea are some common side effects of this medicine.

LENVANAMO CAPSULES

LENVATINIB 4 MG

PACLINAMO 300mg Injection is an anti-cancer medication used for the treatment of breast cancer, pancreatic cancer and non-small cell lung cancer. Some common side effects of this medicine include nausea, vomiting, and weakness. It may also cause serious side effects such as swelling of hands, lips, hair loss, and weight gain.

LENANAMO CAPSULES

LENALIDOMIDE 25 MG

LENANAMO Capsule belongs to a group of medicines that affect how your immun system works. It is used in the treatment of multiple myeloma and myelodysplasti syndrome.

LENANAMO CAPSULES

LENALIDOMIDE 10 MG

LENANAMO Capsule belongs to a group of medicines that affect how your immun system works. It is used in the treatment of multiple myeloma and myelodysplasti syndrome.

PALBONAMO CAPSULES

PALBOCICLIB 125 MG

LENANAMO Capsule belongs to a group of medicines that affect how your immun system works. It is used in the treatment of multiple myeloma and myelodysplasti syndrome.

SUTENAMO CAPSULES

SUNITINIB 50 MG

SUTENAMO 50mg Tablet belongs to the class of medicines known as tyrosine kinase inhibitors used in the treatment of liver cancer, kidney cancer, and thyroid cancer.

SUTENAMO CAPSULES

SUNITINIB 25 MG

SUTENAMO 25mg Tablet belongs to the class of medicines known as tyrosine kinase inhibitors used in the treatment of liver cancer, kidney cancer, and thyroid cancer.

SORANAMO TABLET

SORAFENIB 200 MG

SORANAMO Tablet belongs to the class of medicines known as tyrosine kinase inhibitors used in the treatment of liver cancer, kidney cancer, and thyroid cancer.

Healing Pharma Sunroof Lotion

Information about Healing Pharma Sunroof Lotion SPF 50 Healing Pharma Sunroof Lotion SPF 50 is a formulation that helps protect the skin from the sun's UV rays. It contains zinc oxide and helps prevent premature skin ageing and photograph dermatitis

TROMBONAMO TABLET

ELTROMBOPAG 25 MG

TROMBONAMO Tablet is used to treat low platelet count due to chronic immune (idiopathic) thrombocytopenic purpura (ITP) or chronic hepatitis C virus (HCV) infection. It is also used to treat severe aplastic anemia.

Tacroheal 0.1% Ointment

In Treatment of Atopic dermatitis

Atopic dermatitis, also known as eczema, is a chronic skin condition causing red, itchy, and inflamed patches on the skin, often associated with allergies. Tacrotor 0.1% Ointment when applied topically suppresses the immune response in the skin, reducing the inflammatory reactions that lead to eczema flare-ups. This way it provides relief and helps improve the quality of life for individuals with atopic dermatitis.

Mupiheal Ointment 15gm

Mupiheal Ointment 15gm is primarily used to manage mild bacterial skin infections. This medicine is part of a group known as topical antibiotics, applied directly to the skin. This ointment can also be used to manage conditions like folliculitis (infected hair follicles), furunculosis (boils), and minor skin cuts or wounds that have become infected. It's particularly effective for tackling impetigo, a condition characterized by red sores on the skin. Inform your doctor about any pre-existing conditions or ongoing medications before you begin. If you notice any side effects while using this ointment, notify your doctor immediately. Continue applying the ointment for the duration prescribed by your doctor to achieve optimal results.

AXINAMO TABLET

AXITINIB 5 MG

AXINAMO 5mg Tablet is an anti-cancer medicine used in the treatment of kidney cancer. The most common side effects of this medicine include high blood pressure, joint pain, and loss of appetite. Diarrheal, shortness of breath, can be serious sometimes so take medicine to treat it as prescribed by the doctor or stay hydrated.

ENZANAMO TABLET

ENZALUTAMIDE 40 MG

ENZANAMO 40Mg Capsule is used in the treatment of cancer of the prostate gland. It may be also used to treat other conditions, as determined by the doctor. It works by blocking the effects of male hormones such as testosterone.

Tretiheal 0.025% Cream 20gm

Tretiheal Cream is primarily used to manage acne, a common skin condition characterised by spots on the face, back, and chest. It belongs to a group of medicines known as retinoids, which are derived from Vitamin A. Apart from managing acne, it can also reduce the appearance of fine wrinkles and mottled skin discolouration. It may also make rough facial skin feel smoother. Before you start using this cream, consult your doctor for instructions on dosage and frequency. Inform your doctor about any pre-existing conditions or ongoing medications before beginning this medicine. If you notice any side effects while using this cream, notify your doctor immediately. Continue using the cream for the duration prescribed by your doctor for optimal results.

ABIRANAMO TABLET

ABIRATERONE ACETATE 250 MG

ABIRANAMO 250mg Tablet is used in the treatment of cancer of the prostate gland. It may be also used to treat other conditions, as determined by the doctor. It is sometimes used with certain other medicines as part of combination chemotherapy.

TENOFOSHIV TABLET

TENOFOVIRDISOPROXILFUMARATE 300 MG

TENOFOSHIV 300Mg Tablet is used in the treatment of chronic hepatitis B virus (HBV) infection. It is also used to treat HIV infection in combination with other anti-HIV medicines. It prevents the multiplication of viruses in human cells. This stops the virus from producing new viruses and clears up your infection.

Tretiheal 0.05% Cream 20gm

Tretiheal 0.05 % Cream is a vitamin A derivative used to treat acne that occurs as patches or pimples on the face, chest, or back. It also aids in the smoothing of rough facial skin and the reduction of fine wrinkles. Tretiheal 0.05 % Cream lowers the skin's excessive oil production. Ideally, a precise application at night for the timeframe indicated by your doctor is recommended. The amount you'll need and how long you'll have to take it will be determined by the condition you're being treated for. Before administering a thin layer of this treatment, you should generally cleanse and dry the affected region. Pay attention to your doctor's directions. It should not be used on injured or broken skin, and it should be kept away from your lips, eyes, and nose. It may take several weeks for your symptoms to ease, but continue to use it on a regular basis for the best results. If you don't see any improvement after a few weeks, see your doctor again. Taking more medicine or applying it more frequently than recommended will not make it work faster and may worsen the side effects.

Tretiheal 0.1% Cream 20gm

Tretiheal 0.1% is a topical cream that contains 0.1% tretinoin, a form of vitamin A, and is used to treat acne and sun-damaged skin

Acne: Tretinoin reduces oil secretion, unclogs pores, and promotes the shedding of dead skin cells to prevent pimples, whiteheads, and blackheads

Sun-damaged skin: Tretinoin can help treat sun-damaged skin

Anti-aging: Tretinoin can reduce the appearance of fine lines, wrinkles, and hyperpigmentation by increasing skin cell turnover and stimulating collagen production

CARVISMART 3.125 TABLET

Carvedilol 3.125 MG

Carvismart 3.125 Tablet is a medicine used to treat high blood pressure, heart-related chest pain (angina), and heart failure. It works by relaxing the blood vessels, so blood can flow more easily to the heart. Lowering blood pressure also helps prevent future heart attacks and stroke.

BISOCOR 5 TABLET

Bisoprolol Fumarate 5 MG

Bisocor 5 Tablet belongs to a group of medicines called beta-blockers. It is used to treat high blood pressure (hypertension), angina (heart-related chest pain), irregular heart rhythms (arrhythmia). It also helps to prevent future heart attacks.

RIVASMART 20 TABLET

RIVAROXABAN BP 20 MG

Rivaroxaban is used to treat deep vein thrombosis (DVT; a blood clot, usually in the leg) and pulmonary embolism (PE; a blood clot in the lung) in adults.

Rivaroxaban is also used to prevent DVT and PE from happening again after initial treatment is completed in adults.

TELMAHEAL CT 12.5 TABLET

Telmisartan and Chlorthalidone 40mg/12.5 MG

Telmaheal CT 12.5 Tablet contains two medicines, both of which help to control high blood pressure. Lowering blood pressure helps to reduce your risk of having a heart attack or a stroke in the future.

TELMAHEAL BETA 50 TABLET

Metoprolol Succinate & Telmisartan 50 MG

Telmaheal Beta 50 belongs to the class antihypertensive agents used to treat hypertension (high blood pressure). It may also be used to lower the risk of heart attack and stroke in future. High blood pressure is a condition in which the force of the blood against the artery walls is too high leading to hypertension. Symptoms of high blood pressure include headache, dizziness, nose bleed, changes in vision, chest pain, weakness and dyspnoea (shortness of breath).

TELMAHEAL BETA 25 TABLET

Metoprolol Succinate & Telmisartan 25 MG

Telmaheal Beta 25 belongs to the class antihypertensive agents used to treat hypertension (high blood pressure). It may also be used to lower the risk of heart attack and stroke in future. High blood pressure is a condition in which the force of the blood against the artery walls is too high leading to hypertension. Symptoms of high blood pressure include headache, dizziness, nose bleed, changes in vision, chest pain, weakness and dyspnoea (shortness of breath).

COLCHIHEAL 0.5 TABLET

Colchicine 0.5 MG

Colchiheal 0.5 is used in the treatment and prevention of acute attacks or flare-ups of gout. Gout is a chronic condition that occurs due to the deposition of uric acid crystals in the joints. It is characterized by intense pain and swelling in the affected joints. Colchicine decreases pain, swelling, and inflammation. It also prevents sudden attacks of pain caused by acute gout.

RANOHEAL 500 TABLET

Ranolazine Sustained Release 500MG

Ranolazine is used alone or with other medications to treat chronic angina (ongoing chest pain or pressure that is felt when the heart does not get enough oxygen). Ranolazine is in a class of medications called anti-anginals. The exact way that ranolazine works is not known at this time.

ROSUFREE F 5 TABLET

Rosuvastatin Calcium & Fenofibrate 5MG/160MG

Rosuvastatin+fenofibrate is used to lower an increased level of total cholesterol (TC) and triglyceride (TG) level. This prevents the risk of having any cardiovascular events like heart attack, stroke, and heart-related chest pain (angina) in the future. The blockage of the heart occurs due to the increased level of bad cholesterol (low-density lipoprotein -LDL and triglycerides - TG), which build-up of fat, cholesterol, and other waxy substances layers forming a plaque in the lining of the artery wall (coronary arteries). This increases the chance of having a blood clot and heart attack in an individual.

CILNIHEAL 20 TABLET

CILNIDIPINE 20 MG

Cilnidipine belongs to a class of medicines called calcium channel blockers which are primarily taken for the treatment of hypertension (high blood pressure) and angina (chest pain). Hypertension (high blood pressure) is lifelong or chronic condition in which the force exerted by the blood against the artery walls becomes high. The higher this blood pressure, the harder the heart has to pump.

CILNIHEAL 5 TABLET

CILNIDIPINE 5 MG

Cilnidipine belongs to a class of medicines called calcium channel blockers which are primarily taken for the treatment of hypertension (high blood pressure) and angina (chest pain). Hypertension (high blood pressure) is lifelong or chronic condition in which the force exerted by the blood against the artery walls becomes high. The higher this blood pressure, the harder the heart has to pump.

FLAVEHEAL MR 35 TABLET

Trimetazidine Modified Release 35 MG

Trimetazidine is used to prevent an attack of angina pectoris (chest pain caused by coronary disease) in adult patients in combination with other medication. Angina is chest pain, which happens when enough supply of oxygen does not reach the heart. The insufficient supply can be due to obstructing the pathway or narrowing the blood vessels.

ZENNAVAIL DS TABLET

Methandienone 25 MG

Metandienone is an orally active anabolic androgenic steroid. It was introduced to the market in the 1960s but later discontinued and withdrawn from the market. Although it is prohibited in and outside competition by the World Anti-Doping Agency, metandienone continues to be marketed and misused as a performance-enhancing drug in sports. In the US, metandienone is a controlled substance under the Controlled Substances.

TORSEHEAL 10 TABLET

Toremide 10 MG

Toremide is used to help treat fluid retention (edema) and swelling that is caused by congestive heart failure, liver disease, kidney disease. It belongs to the group of medicines called loop diuretics (water pills). This medicine works by acting on the kidneys to increase the flow of urine.

TORSEHEAL 5 TABLET

Torsemide 5 MG

Torsemide is used to help treat fluid retention (edema) and swelling that is caused by congestive heart failure, liver disease, kidney disease. It belongs to the group of medicines called loop diuretics (water pills). This medicine works by acting on the kidneys to increase the flow of urine.

COVERHEAL 4 TABLET

Perindopril Erbumine BP 4 MG

COVERHEAL 4MG Tablet is an anti-hypertensive medicine used in the treatment of high blood pressure and heart failure (insufficient pumping of the blood by the heart). It also reduces the risk of heart attack (blocked blood flow to heart muscles) and stroke (brain damage due to interrupted blood supply).

ZETIHEAL 10 TABLET

Ezetimibe 10 MG

Ezetimibe is a type of medicine used to lower cholesterol. Cholesterol is a fatty substance in your blood that can block your blood vessels if levels become too high. This can make you more likely to have heart problems or a stroke. Ezetimibe is used to treat high blood cholesterol.

CILNIHEAL 10 TABLET

CILNIDIPINE 10 MG

Cilnidipine belongs to a class of medicines called calcium channel blockers which are primarily taken for the treatment of hypertension (high blood pressure) and angina (chest pain). Hypertension (high blood pressure) is a lifelong or chronic condition in which the force exerted by the blood against the artery walls becomes high. The higher this blood pressure, the harder the heart has to pump.

CENFORCE 100 TABLET

Sildenafil Citrate 100 MG

Cenforce 100mg tablets treats erectile dysfunction by increasing blood flow to the penis during sexual stimulation. This increased blood flow can cause an erection. Sildenafil treats PAH by relaxing the blood vessels in the lungs to allow blood to flow easily.

CENFORCE 150 TABLET

Sildenafil Citrate 150 MG

Cenforce 150mg tablets treats erectile dysfunction by increasing blood flow to the penis during sexual stimulation. This increased blood flow can cause an erection. Sildenafil treats PAH by relaxing the blood vessels in the lungs to allow blood to flow easily.

CENFORCE 200 TABLET

Sildenafil Citrate 200 MG

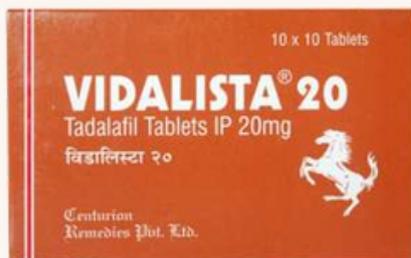

Cenforce 200mg tablets treats erectile dysfunction by increasing blood flow to the penis during sexual stimulation. This increased blood flow can cause an erection. Sildenafil treats PAH by relaxing the blood vessels in the lungs to allow blood to flow easily.

CENFORCE 50 TABLET

Sildenafil Citrate 50 MG

Cenforce 50mg tablets treats erectile dysfunction by increasing blood flow to the penis during sexual stimulation. This increased blood flow can cause an erection. Sildenafil treats PAH by relaxing the blood vessels in the lungs to allow blood to flow easily.

VIDALISTA 20 TABLET

Tadalafil 20 MG

Tadalafil (Cialis) is used to treat erectile dysfunction and the symptoms of benign prostatic hyperplasia (BPH; an enlarged prostate) which include difficulty urinating (hesitation, dribbling, weak stream, and incomplete bladder emptying), painful urination, and urinary frequency and urgency in adult men.

VIDALISTA 40 TABLET

Tadalafil 40 MG

Tadalafil (Cialis) is used to treat erectile dysfunction and the symptoms of benign prostatic hyperplasia (BPH; an enlarged prostate) which include difficulty urinating (hesitation, dribbling, weak stream, and incomplete bladder emptying), painful urination, and urinary frequency and urgency in adult men.

VIDALISTA 60 TABLET

Tadalafil 60 MG

Tadalafil (Cialis) is used to treat erectile dysfunction and the symptoms of benign prostatic hyperplasia (BPH; an enlarged prostate) which include difficulty urinating (hesitation, dribbling, weak stream, and incomplete bladder emptying), painful urination, and urinary frequency and urgency in adult men.

VIDALISTA 80 TABLET

Tadalafil 80 MG

Tadalafil (Cialis) is used to treat erectile dysfunction and the symptoms of benign prostatic hyperplasia (BPH; an enlarged prostate) which include difficulty urinating (hesitation, dribbling, weak stream, and incomplete bladder emptying), painful urination, and urinary frequency and urgency in adult men.
